

## Software Developer Extremely Heavy Industries

---

Extremely Heavy Industries, an independent Los Angeles based software consultancy, is looking to hire a developer on a temporary basis to assist with a project. The project involves an internal web application for an East Coast financial institution. If the project and our working relationship are successful, the position offers great potential for growth and future work.

### Basic Information:

---

<b>Location:</b>	McArthur Park, Los Angeles (near Mid-Wilshire, Downtown, Echo Park)
<b>Hours:</b>	15-20 hours / 2-3 days per week (flexible, room for growth)
<b>Job Type:</b>	Independent contractor, hourly basis (1099)
<b>Rate:</b>	Dependent on experience

### Technologies:

---

- We will be building the web application using the **Java-based Groovy / Grails framework** for the server-side and the **ExtJS javascript framework** for the client side.
- An ideal candidate would have real-world experience with both of these frameworks, but **we are happy to consider candidates who have specialized in one of these two worlds**. Based on candidate experience and availability, we can divide project responsibilities and work accordingly.
- A strong knowledge of core cross-platform **database concepts, Java fundamentals, and object-oriented programming** design and best practices is required of all candidates.
- For a client-side focused developer, a strong knowledge of **Javascript, AJAX, DHTML, and CSS** is required, along with a keen sense of layout and design.

### Other Requirements:

---

- Candidates must have proven real-world experience designing and coding modern web applications for business use.
- Candidates must be highly motivated, self-sufficient, and able to hit the ground running.
- We seek to design extremely usable, maintainable, and high-quality software. A strong attention to detail and focus on code/design quality and user experience is mandatory.
- The nature of the work is completely internal to the client. Candidates must be sensitive to issues of confidentiality and hires will be required to sign appropriate non-disclosure agreements.
- Work will be done onsite at ExHI offices. We will provide parking and a workstation.

### Contact:

---

Interested parties should submit a resume, brief cover letter (including your desired hourly rate), and screenshots or samples of recent work to [jobs@xheavy.com](mailto:jobs@xheavy.com).
